About me

I am a software engineering undergraduate at Uva Wellassa University, focusing on Web Development. I also write blogs, sharing insights on technology and design. I enjoy building user-friendly, visually appealing interfaces and am eager to apply my skills in a dynamic, real-world setting.

Education

Bachelor of Information and Communication Technology Honours   **Jul 2022 – Ongoing**

📍 Uva Wellassa University of Sri Lanka

- GPA: 3.28/4.0

GCE Advance Level   **Apr 2018 – 2020**

📍 MR/ Narandeniya National Collage

- Advanced Level in Technology Stream - 1A 2C

Projects

Restaurant Management System

Developed a web application for restaurant reservations.The platform features real-time reservation management, enhancing efficiency and customer satisfaction while reducing overbooking risks through accurate database updates.**(HTML, CSS, JavaScript, PHP, MySQL)**

Doc Finder

Developed a district-specific platform to locate hospitals and doctors based on specialization and availability. The system offered real-time updates on doctor hours and hospital information, streamlining healthcare access **(HTML, CSS Java Script, PHP, My SQL)**

Portfolio

Built a personal portfolio website to showcase skills, projects, and blog posts. The site features an intuitive, responsive design, emphasizing my expertise in front-end development and UI/UX design **(React js, CSS, Gsap Animation)**

WOODIES

Developed a niche online marketplace connecting artisans and buyers, focused on eco-friendly wood wall shelves. The platform features user-friendly product listings, a responsive design, and streamlined purchasing processes. **(React.js, JSP, MySQL)**

Learnables

Learnables is a peer-to-peer marketplace for university students to buy, sell, and rent study materials (textbooks, notes, lab equipment). It promotes affordability, accessibility, and sustainability while fostering a community-driven environment for academic success.**(React JS, TypeScript, Next.js, Sass, VoiceFlow, MongoDB, Replit)**

CampKit

Developed a mobile app for renting camping equipment, featuring an intuitive interface for browsing, reserving, and managing rentals, simplifying access to gear for outdoor enthusiasts. **(Flutter)**

Certifications

Web Development: Web Development for Beginners, University of Moratuwa   August 18, 2024

Programming in Python: Python for Beginners, University of Moratuwa   April 2, 2024

Technologies

Languages: React JS, Dart, Java, HTML, CSS, JavaScript, C

Version Control: Git, GitHub

Design Tools: Figma
